

EDUCATION

Sri Eshwar College of Engineering	B.Tech (AI&DS)	CGPA: 6.82	2022–2026
P A Polytechnic College	Diploma (MECH)	81.1%	2020–2023
KMG Matriculation School	SSLC	55.2%	2019–2020

PROFESSIONAL EXPERIENCE

AI Engineer Intern – FortRise Business Solution Apr 2026–Present

- Develop enterprise AI applications using Python, FastAPI, and LLM-based backend services.
- Build RAG pipelines with LangChain, LangGraph, embedding models, Qdrant, and semantic search.
- Implement REST APIs for document understanding and conversational AI systems using Hugging Face Transformers.
- Integrate PostgreSQL, Redis, Docker, and Git workflows into production-ready AI systems.
- Collaborate on scalable backend development for enterprise AI automation and retrieval workflows.

Tech Stack: Python, FastAPI, LangChain, LangGraph, Hugging Face Transformers, PostgreSQL, Qdrant, Redis, Docker, Git

PROJECTS

Intelligent Candidate Ranking System 2026

Developed an offline AI candidate ranking system that matches 100K+ profiles against job descriptions using semantic retrieval, feature engineering, and explainable scoring. Built a CPU-only ranking pipeline with consistency validation, honeypot detection, and evidence-based reasoning optimized for 16GB RAM and sub-5-minute inference.

Tech Stack: Python, Sentence Transformers (all-MiniLM-L6-v2), Scikit-learn, NumPy, Pandas, NLP, Semantic Search, Information Retrieval — [GitHub](#)

Storyboard AI for Movie Makers 2025

Developed an AI storyboard generation tool that converts text prompts into visual scene frames. Implemented customizable camera angles and continuity controls to preserve character faces across frames while changing environments. Integrated Streamlit with the getting.ai API for image generation.

Tech Stack: getting.ai API, Python

AI Interview System 2024

Developed an AI interview practice application with voice interaction, AI-generated questions, and real-time feedback. Evaluated candidate responses using Gemini AI and analyzed body language through webcam-based MediaPipe processing.

Tech Stack: Python, Gemini AI API, MediaPipe, Speech Recognition — [GitHub](#)

SKILLS

Languages	Python Java C Basic C++
AI/ML	Machine Learning NLP RAG LLMs Semantic Search
Frameworks	FastAPI LangChain LangGraph Transformers REST APIs
Databases	PostgreSQL MongoDB MySQL Qdrant Redis
Cloud & Tools	Git GitHub Docker Linux

ACHIEVEMENTS

- **LeetCode** - Achieved 1400+ rating | Top 19.38% worldwide | Solved 150+ problems | [Profile](#).
- **CodeChef** - Solved 30+ programming problems | [Profile](#).
- **HackerRank** - Earned 2 certificates and 2 badges | [Profile](#).
- Participated in an AI-ML hackathon at Bannari Amman Institute of Technology. 2024
- Participated in a hackathon at PSG College of Technology. 2023
- Participated in Career & Skill Development Programme at SRCE. 2023
